# Campaign Performance & ROI

This integration allows you to fully understand which of your ads are influencing your bottom line so you can draw a direct line between clicks on your LinkedIn ads, and return on your ad spend so you will never again struggle to prove the ROI of your advertising.

**Using HubSpot, you can see how LinkedIn ads compare to other channels, and access:**

- Conversion reporting for LinkedIn ads
- Full funnel ROI reporting for your ads
- Custom reporting
- Offline conversions reporting to understand how your ads are driving in-person or over the phone conversions
- Uncover Insights about your campaign performance across each stage of the customer journey

The LinkedIn Hubspot integration uses custom revenue figures to calculate ROI so you can see exactly how your ads are influencing your contacts throughout their lifecycle or customer journey, allowing you to better understand how the marketing and sales activities are creating revenue for your business.

To visualize the full picture of your ROI you will also be able to see how LinkedIn ads are performing relative to other channels, as well as see Conversion reporting specifically for your LinkedIn ads— leaving no ROI metric stone unturned or unexamined.
